Monday, March 29, and Tuesday, March 30
11:00 AM-2:30 PM Pacific Time
2:00-5:30 PM Eastern Time

\$50 USD registration fee increases to \$75 USD on March 22, so register early!

Co-Organized by the
US/Canadian Spray Application Working Group and
University of California Cooperative Extension

A two-day webinar providing participants with practical information to maximize the effectiveness and efficiency of their air-assisted sprayers used in orchards, vineyards and some bush crops.

Intended Audience

Pesticide applicators, supervisors, growers, licensed professional applicators, Pest Control Advisors and anyone involved in spray application decision making in the orchard or vineyard.

Webinar Objective

Featuring recognized experts hailing from the U.S. and Canada, this unique nationally broadcast workshop, the first of its kind, aims to provide participants the knowledge and insight needed to assess and improve their own spray operations. Presentations will use a variety of air-assist sprayers used in a wide range of orchard/vineyard cropping systems. Audience interaction via Q&A sessions at the end of each day is welcome.

Pesticide Continuing Education Units (CEUs) are applied for the following: California, Oregon, Michigan, New Hampshire and Washington and British Columbia, Canada.
